REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Dunbarton:

I hereby submit my annual report as superintendent of the schools of Dunbarton.

The current school year opened with 64 pupils registered at the Center School. Mrs. Marion Hayes and Mrs. Elizabeth Fottler, both of whom had previously taught in Dunbarton, were in charge of the primary and grammar rooms respectively.

In June of 1950 Miss Sarah Ames, who had long served as a teacher in our local schools, more recently at Montalona, asked to be relieved of her duties, and it was the wish and hope of all of her many friends that she would enjoy many years of well-earned retirement. However, the community was shocked to hear of her death during the past fall.

With the retirement of Miss Ames, it was the feeling of the School Board that the Montalona School should be closed and the pupils provided for either at the Center School or in the schools of neighboring towns on a tuition basis.

We are, therefore, this year sending eight elementary pupils to Manchester and three to Bow. Some seven other pupils are attending private schools in Manchester. Our yearly cost for tuition and transportation on the above mentioned public tuition pupils is slightly lower than the estimated cost of operation of the Montalona School, were we to operate and maintain said school this year and provide transportation thereto.

Our school lunch program, which did not operate during

the school year 1949-50, opened on December 11, and it is hoped that we can continue operation through the month of March. With increasing food costs, and a reduction in the amount of federal funds received from federal sources, all lunch programs are faced with a difficult financial problem. The Center School Program is being operated by Mrs. John Ballam this year very satisfactorily.

The budget for 1951-52 as proposed by the School Board and contained elsewhere in this report shows an increase of \$2,300 over last year's budget. As the reader will note on close examination, our principal increase is in our high school tuition allowance. Last year we raised some \$6,750 for this purpose, while the 51-52 budget calls for \$9,210, a difference approximately equal to the increase in the total budget.

This year we have some 25 secondary school pupils in the high schools of Concord, Goffstown and Manchester. Next year this figure will probably increase to 35. This added number of pupils plus an increase in the tuition rates accounts for the additional funds needed for 1951-52.

The school warrant contains an article to raise an amount of money to meet unanticipated expenses for the current year. Again it is a tuition item. Our 50-51 budget called for \$6,750, but an increase in tuition rates and in the number of pupils, causes a probable expenditure this year of \$8,025. Some of this over-run will be met by savings in other items. It appears that we shall need approximately \$500 additional to meet our expenses to June 30, 1951.

At the present writing it is impossible to state what action the General Court will take on State Aid. It is probable that the figure of \$400,000 appropriated two years ago will be increased, and undoubtedly Dunbarton's share will be in excess of the \$4,200 received this year. The assessment on the district for the coming year should not be as great as that shown in the budget for 51-52. Article No. 8 in the

warrant allows for the actual assessment to be determined when definite figures on the State Aid allotment are available.

Respectfully submitted,
LEWIS F. FOOTE,
Superintendent of Schools.

REPORT OF THE SCHOOL NURSE

At the beginning of the school year, September, 1949, 95 pupils were weighed, measured and examined by the school nurse. Later a vision and hearing test was given with the aid of an electrically controlled machine and notices sent to the parents of defects found.

The number of pupils affected and the number of defects corrected is as follows:

Defective vision—12	Defects corrected—10
Defective teeth—70	Defects corrected—49
Diseased tonsils—9	Number corrected— 9

In the spring of 1950 there were 31 cases of Mumps, 6 German Measles, and one pneumonia. One child had a chest X-ray. I arranged for one child to go to the pediatric clinic in Concord for a tonsilectomy, and also arranged for a girl to go to an oculist. I accompanied a boy to the Elliot Hospital for a physical examination.

I would like at this time to say that I think the teachers should be given credit for recognizing and reporting communicable diseases, thus keeping diseases at a minimum in our school, and I do appreciate their cooperation so much.

Twenty-six children had the Patch test in the fall, most of these had had the test four years ago. All were found negative to tuberculosis.

Since September 12, 1950, the State Board of Health's mobile chest X-ray unit has been parked on Elm St., in Manchester. This mass X-ray survey is free to all young people fifteen years and over and to all adults. When I asked if the trailer could be brought to Dunbarton or to Goffstown given those in Goffstown, Weare, New Boston

and Dunbarton an opportunity to have this screening test, I was told that these towns were too near Concord and Manchester, and that if our people were interested, they could easily take advantage of this program in either of the two cities. Many of the Goffstown High School pupils have been in for the test.

Twenty-five home visits were made during the year.

EDITH G. WALKER,
School Nurse.

FOREST FIRE PREVENTION PAYS DIVIDENDS

Most forest fires are preventable because someone is responsible for them. State records for 1950 show 94% of 632 fires resulted from human perversness and carelessness. Refusal to secure the required warden permit before burning; failure to use good judgment, lack of equipment and assistance while burning; carelessness in smoking and poorly conditioned woods equipment (trucks, tractors, etc.) resulted in a total of 6090.6 burned acres with a loss of \$63,949.10 in valuable property.

Fortunately, these human factors can be dealt with because people can be reached. This the local forest fire warden tries to do by informing his fellow citizens that

EVERYBODY MUST:

1. Secure a written permit to burn in or near woodlands when the ground is not covered with snow.
2. Use good judgment in burning and have enough equipment and assistance to keep fire under control at all times.
3. Be careful when smoking in or near woodlands and refrain from throwing lighted material from automobiles.
4. Make certain that all equipment used in the woods is in good condition.
